

New York State Society of
Oral & Maxillofacial Surgeons

CONTINUING EDUCATION

New York State Dental Association is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Concerns or complaints about a CE Provider may be directed to the provider or to the ADA CERP at www.ada.org/cerp.

NYS Dental Association designates this activity for 4.50 continuing education credits.

LOCATION

Weill Cornell Medical College
Uris Auditorium
1300 York Ave. @ 69th St.
New York, NY 10065

PARKING

Parking is available at the Main Hospital Entrance on 68th St. east of York Ave. Private parking garages are also located in the surrounding neighborhood.

20 Corporate Woods Blvd Suite 602
Albany, New York 12211

2024 FALL MEETING

Sunday, October 27, 2024

Featuring

EDWARD C. ADLESIC, D.M.D.

Current Issues and Variables in Office-Based Anesthesia

Weill Cornell Medical College
NEW YORK CITY

Sunday, October 27

PROGRAM

| | |
|---------------|--------------------------------------|
| 8:00 – 8:45 | Registration & Continental Breakfast |
| 8:45 – 9:00 | Introductions |
| 9:00 – 10:30 | Lecture |
| 10:30 – 10:45 | Coffee Break |
| 10:45 – 12:15 | Lecture |
| 12:15 – 1:00 | Lunch Break |
| 1:00 – 2:30 | Lecture |

PRESENTATION

Dr. Adlesic will walk attendees through a number of health conditions, habits, and complexities that can present during patient sedation. He will discuss Serotonin Toxicity Syndrome as well as hereditary angioedema.

He will discuss the implications of anesthesia with GLP-1 Agonists which are increasingly being used by patients who may be diabetic, obese, or even normal weight.

With increased legalization and usage of Marijuana, practitioners need to understand the current data on how this drug interacts with popular anesthetics. Dr. Adlesic will discuss the most recent findings in this area.

Additional material will cover perioperative management of asthma in Office Anesthesia, as well as handling Perioperative Anaphylaxis and the Kounis Syndrome.

OBJECTIVES

Attendees of this presentation can expect to be better prepared to handle the following anesthetic variables:

- Serotonin Syndromes are becoming more common in clinical practice. The hypertension, tachycardia, and hyperthermia seen can mimic Malignant Hyperthermia. Anesthetic agents may interact with serotonin drugs to precipitate rather bizarre reactions.

- Diabetes is commonly seen in our practices. What should we do and when do we defer? NPO is not necessarily a guarantee of an aspiration free anesthetic.
- Marijuana: What are the interactions? Do we tell everyone to hold this drug for 72 hours? This will all be discussed in this presentation.
- Asthma and anesthesia: What do we do and who needs to go to the hospital? How do you use an albuterol inhaler in an open airway anesthetic?
- Hereditary angioedema is rare but possible. What medications must we have in an office and at home? What is the airway risk?
- Anaphylaxis from a bee sting in the yard is not the same as anaphylaxis during an anesthetic. How do we manage the “Stay Puff Marshmallow Man” with no blood pressure and chest pain?

SPEAKER

EDWARD C. ADLESIC, D.M.D.

Dr. Edward C. Adlesic received his dental degree from the University of Pittsburgh School of Dental Medicine in 1980 and then completed an Oral and Maxillofacial Surgery Residency program at Thomas Jefferson University Hospital, Philadelphia, Pennsylvania in 1984.

He returned to Pittsburgh and established a private practice in Oral and Maxillofacial Surgery that he maintained from 1984 to 2015. During that time,

he served as Chief of the Division of Oral and Maxillofacial Surgery at the Western Pennsylvania Hospital for 18 years, and served in the United States Army Reserves from 1988 to 1998 being activated for Operation Desert Storm in 1991.

In 2015, he accepted a faculty position at the University of Pittsburgh as an Associate Professor in Oral and Maxillofacial Surgery with a dual appointment in the Department of Dental Anesthesiology which he currently maintains. Dr. Adlesic is a Fellow in AAOMS and is the Chair for the Committee on Anesthesia. He is a Diplomate of the American Board of Oral and Maxillofacial Surgery and served on the Oral Examination Committee of ABOMS.

Dr. Adlesic is a Fellow in the American Dental Society of Anesthesiology and a Diplomate of the National Board of Dental Anesthesiology. He is a past Director and the current President Elect of the American Dental Society of Anesthesiology.

He was recently appointed to the Patient Advisory Council of the Malignant Hyperthermia Association of the United States as the Dental Consultant for the Association.

Dr. Adlesic is a frequent lecturer at AAOMS and ADSA regional and national meetings.

FEE INFORMATION

| | |
|--|--------------------------------|
| <input type="checkbox"/> NYSSOMS Member | <input type="checkbox"/> \$250 |
| <input type="checkbox"/> NYSSOMS Life Member | <input type="checkbox"/> \$150 |
| <input type="checkbox"/> AAOMS Member | <input type="checkbox"/> \$275 |
| <input type="checkbox"/> OMS Resident | <input type="checkbox"/> \$50 |
| <input type="checkbox"/> Non-AAOMS Member | <input type="checkbox"/> \$450 |

Online registration is available at: <https://tinyurl.com/OMS1024>

To register by mail, please complete and return this form or call the office at **800-255-2100** to register by phone.
